

EJE MEDIC GROUP

Greetings,

How do I participate in the Veteran Wellness Program:

A veteran needs to register for the FOREIGN MEDICAL PROGRAM in order to participate in the Veteran Travel Wellness Program to receive medical care. You need to have a VA disability of at least 0% to participate in the program (physical disability and mental disability).

Requirements:

1. Veteran must be rated at least 0% for a Physical disability and PTSD/Anxiety.
2. Veteran must register online for the Foreign Medical Care Program.
3. Veteran must have a valid passport.

Moreover, if veterans also have a sleep apnea disability rating (along with Physical and PTSD/Anxiety disabilities) they are highly encouraged to apply as they will have the opportunity to receive a dental oral appliance specifically for sleep apnea.

The length of the Travel Wellness Program - Samana or Cartagena will be 2 weeks depending on the medical condition of each individual veteran as well as the comprehensive dental treatment will be offered to the veterans.

As a reminder, There is no cost to the veterans. EJE MEDIC GROUP will manage and handle travel, food, lodging, and medical care.

Respectfully yours,

Luis Luna

President of EJE MEDIC GROUP
